

PUSHP ENTERPRISE
Delivering Excellence

PUSHP ENTERPRISE
Delivering Excellence

About Us

We take pride in being one of the leading brass merchandise manufacturers and exporters in India. With a commitment to quality and innovation, we strive to provide our clients with the best products and services tailored to their specific needs.

Mission

We committed to deliver best quality products and services to our customers

Vision

Our vision is to be world class producer. Quality and Customization characterizes us what we plan and produce.

Value

Dediated to providing high quality products and continually striving best through innovation.

Quality

We are proud to be an ISO 9001:2015 certified company, a testament to our dedication to maintaining international quality standards.

ISO Certified

Products

Brass Turned Components

Brass turned components are precision-engineered parts made from brass, a durable and corrosion-resistant metal alloy primarily consisting of copper and zinc.

These components are created through a turning process using CNC (Computer Numerical Control) machines or lathes, which allows for precise shaping, cutting, and finishing.

Product Range

- ✓ Brass Turned Parts for Hydraulics & Pneumatics
- ✓ Brass Swivel Connector
- ✓ Brass Ball-End Joint Adapter
- ✓ Brass Hose Barb 90° Elbow
- ✓ Brass Barb 45° Elbow
- ✓ Brass Hose Barb to Female Ball-End
- ✓ Brass Hose Barb to 45° Female Flare
- ✓ Brass Flare to Metric Adapter

Technical Information

Material	:	Brass IS-319 Grade I & Grade II C 36000, Free Cutting, BS 249, etc. Any special Brass Material Composition as per customers requirement
Threads	:	ISO Metric, BSP, BSPT, NPT, NPTF, UNC, UNF UNEF etc. Any threads as per customer specification.
Size	:	As per Customer requirement specification or as per custom design
Finishing/Plating	:	Brass Natural, Electro Tinned, Nickel, Silver, Zinc, Nickle-Chrome or Any Special Finish/Plating as per Customer's Specification.

Products

Brass Precision Components

Brass turned components are precision-engineered parts made from brass, a durable and corrosion-resistant metal alloy primarily consisting of copper and zinc.

These components are created through a turning process using CNC (Computer Numerical Control) machines or lathes, which allows for precise shaping, cutting, and finishing.

These components are widely used across various industries, including automotive, electrical, plumbing, and electronics.

Product Range

- ✓ Brass Inserts
- ✓ Brass Bushing
- ✓ Brass Fasteners
- ✓ Brass Nozzles
- ✓ Brass Turned Parts
- ✓ Brass Spacers and Standoffs
- ✓ Brass Pins and Terminals
- ✓ Brass Adapters and Couplings
- ✓ Brass Fittings and Connectors

Technical Information

Material	:	Brass IS-319 Grade I & Grade II, C 36000, Free Cutting, BS 249, CuZn39Pb3 etc. Any special Brass Material Composition as per customers requirement
Threads	:	ISO Metric, BSP, BSPT, NPT, NPTF, UNC, UNF UNEF etc. Any threads as per custom design
Size	:	As per Customer requirement specification or as per custom design
Finishing/Plating	:	Brass Natural, Electro Tinned, Nickel, Silver, Zinc, Nickle-Chrome or Any Special Finish/Plating as per Customer's Specification.

Products

Aluminum and Copper Components

Aluminium and copper components are widely used in various industries due to their unique material properties.

Aluminium is lightweight, highly corrosion-resistant, and offers excellent machinability, making it ideal for applications in aerospace, automotive, construction, and electrical industries.

Copper components, whether made from pure copper or alloys like brass, bronze, and copper-nickel, are essential in electrical wiring, plumbing, heat exchangers, and industrial machinery.

Product Range

- ✓ Automotive Parts
- ✓ Engine Components
- ✓ Aerospace Components
- ✓ Aircraft Structural Parts
- ✓ Landing Gear Parts
- ✓ Construction and Architecture
- ✓ Electrical Components
- ✓ Electrical connectors and terminals
- ✓ Industrial Components
- ✓ Electrical and Electronics
- ✓ Plumbing and HVAC
- ✓ Automotive

Technical Information

Material	:	C11000,Copper-Alloyed,Copper-Tin Alloys, Chromium, Beryllium or As per Customer requirement.
Threads	:	ISO Metric, BSP, BSPT, NPT, NPTF, UNC, UNF UNEF etc. Any threads as per custom design
Size	:	As per Customer requirement specification or as per custom design
Finishing/Plating	:	Brass Natural, Electro Tinned, Nickel, Silver, Zinc, Nickle-Chrome or Any Special Finish/Plating as per Customer's Specification.

Products

Brass Sanitary Fittings

Brass sanitary fittings are essential components in modern plumbing systems, widely used in both residential and commercial applications.

Made from a durable alloy of copper and zinc, brass fittings offer excellent resistance to corrosion, making them ideal for environments exposed to water and moisture. These fittings include faucets, taps, valves, pipe connectors, shower heads, and drain components, all of which play a critical role in ensuring the proper flow, control, and drainage of water in sanitary systems.

Product Range

- ✓ Ball Valves
- ✓ Gate Valves
- ✓ Check Valves
- ✓ Globe Valves
- ✓ Basin Taps
- ✓ Kitchen Faucets
- ✓ Shower Valves
- ✓ Hose Connectors
- ✓ Reducers
- ✓ Elbows
- ✓ Couplings
- ✓ Angle Valve
- ✓ Pressure Relief Valve
- ✓ Polished Brass
- ✓ Brush Brass

Technical Information

Material	:	Brass Composition, C36000, C38000, C44500 etc or As per Customer requirement.
Threads	:	ISO Metric, BSP, BSPT, NPT, NPTF, UNC, UNF UNEF etc. Any threads as per custom design
Size	:	As per Customer requirement specification or as per custom design
Finishing/Plating	:	Brass Natural, Electro Tinned, Nickel, Silver, Zinc, Nickle-Chrome or Any Special Finish/Plating as per Customer's Specification.

Products

Brass Hose Barb Fitting

Brass hose barb fittings are essential components used in plumbing and fluid transfer systems to securely connect hoses to pipes, valves, or other equipment. Made from durable brass alloys, typically consisting of copper and zinc, these fittings offer excellent corrosion resistance, strength, and reliability.

Brass hose barb fittings are commonly used in a variety of applications, including water, air, gas, and fuel lines, thanks to their ability to withstand harsh conditions and resist wear over time.

Product Range

- ✓ Straight Barb Fittings
- ✓ Elbow Barb Fittings
- ✓ Tee Barb Fittings
- ✓ Cross Barb Fittings
- ✓ Reducing Barb Fittings
- ✓ Male and Female Barb Fittings
- ✓ Barbed Adapter Fittings

Technical Information

Material	:	Brass IS-319 Grade I & Grade II C 36000, Free Cutting, BS 249, C36000 (Free - Cutting Brass), C38500 (Commercial Brass) etc.
Threads	:	ISO Metric, BSP, BSPT, NPT, NPTF, UNC, UNF UNEF etc. Any threads as per custom design
Size	:	As per Customer requirement specification or as per custom design
Finishing/Plating	:	Brass Natural, Electro Tinned, Nickel, Silver, Zinc, Nickel-Chrome or Any Special Finish/Plating as per Customer's Specification.

Products

Brass Gas Fitting

Brass gas fittings are critical Components in gas distribution systems, ensuring secure, leak-free connections for natural gas, propane, and other gas applications.

These fittings are designed to withstand high pressures and resist corrosion, providing long-lasting performance and safety.

Product Range

- ✓ Brass Gas Valves
- ✓ Brass Gas Connectors
- ✓ Brass Gas Nozzle
- ✓ Brass Flare Nut
- ✓ Brass Nipples
- ✓ Brass Reducers
- ✓ Brass Plugs and Caps
- ✓ Brass LPG Jet
- ✓ Brass Gas Couplings and Adapters
- ✓ Brass Hose Barb Fittings

Technical Information

Material	:	Brass IS-319 Grade I & Grade II, C 36000, Free Cutting, CuZn39Pb3 etc. Any special Brass Material as per customers requirement.
Threads	:	ISO Metric, BSP, BSPT, NPT, NPTF, UNC, UNF UNEF etc. Any threads as per custom design
Size	:	As per Customer requirement specification or as per custom design
Finishing/Plating	:	Brass Natural, Electro Tinned, Nickel, Silver, Zinc, Nickle-Chrome or Any Special Finish/Plating as per Customer's Specification.

Products

Brass Electrical Components

Brass electrical components are essential parts widely used across various industries due to their excellent electrical conductivity, corrosion resistance, and durability.

These components are created through a turning process using CNC (Computer Numerical Control) machines or lathes, which allows for precise shaping, cutting, and finishing.

Product Range

- ✓ Brass Swivel Connector
- ✓ Brass Strip Connectors
- ✓ Brass Inserts
- ✓ Battery Terminals
- ✓ Brass Electrical Bolts
- ✓ Brass Anchor
- ✓ Brass Cable Gland
- ✓ Brass Spacers
- ✓ Brass Connectors
- ✓ Electrical Pins
- ✓ Brass Sheet Metal Parts
- ✓ Panel Board Accessories

Technical Information

Material	:	Brass IS-319 Grade I & Grade II, C 36000, Free Cutting, BS 249, CuZn39Pb3 etc. Any special Brass Material as per customers requirement.
Threads	:	ISO Metric, BSP, BSPT, NPT, NPTF, UNC, UNF UNEF etc. Any threads as per custom design
Size	:	As per Customer requirement specification or as per custom design
Finishing/Plating	:	Brass Natural, Electro Tinned, Nickel, Silver, Zinc, Nickle-Chrome or Any Special Finish/Plating as per Customer's Specification.

Products

Brass Auto Parts

Brass auto parts are crucial in the automotive industry due to their exceptional properties, including corrosion resistance, high conductivity, and durability.

These parts not only enhance the performance and longevity of vehicles but also ensure safety, efficiency, and reliability in demanding automotive environments.

Product Range

- ✓ Auto Sensors Parts
- ✓ Brass Banjo
- ✓ Brass Tee
- ✓ Brass VOSS Type Fittings
- ✓ Brass Pad
- ✓ Air Drain Valve
- ✓ Brass Bush
- ✓ Brass Wing Nuts
- ✓ Brass Hose Joints
- ✓ Brass Socket
- ✓ Brass Nut
- ✓ Air Compressor Socket

Technical Information

Material	:	Brass IS-319 Grade I & Grade II, C 36000, Free Cutting, BS 249, CuZn39Pb3 etc. Any special Brass Material as per customers requirement.
Threads	:	ISO Metric, BSP, BSPT, NPT, NPTF, UNC, UNF UNEF etc. Any threads as per custom design
Size	:	As per Customer requirement specification or as per custom design
Finishing/Plating	:	Brass Natural, Electro Tinned, Nickel, Silver, Zinc, Nickle-Chrome or Any Special Finish/Plating as per Customer's Specification.

Products

Brass Hardware Parts

Brass hardware parts are widely utilized for their strength, aesthetic appeal, and resistance to corrosion, making them ideal for both functional and decorative applications.

These parts include a variety of components such as door handles, hinges, locks, latches, fasteners, brackets, and cabinet hardware.

Product Range

- ✓ Brass Aldrops
- ✓ Brass Door Handles
- ✓ Brass Knobs
- ✓ Brass Baby Latch
- ✓ Brass Tower Bolts
- ✓ Brass Hings
- ✓ Brass Handle
- ✓ Brass Glass Holder
- ✓ Brass Gate Hook
- ✓ Brass Mirror Cap
- ✓ Brass Keyhole
- ✓ Brass Door Eye

Technical Information

Material	:	Brass IS-319 Grade I & Grade II, C 36000, Free Cutting, BS 249, CuZn39Pb3 etc. Any special Brass Material as per customers requirement.
Threads	:	ISO Metric, BSP, BSPT, NPT, NPTF, UNC, UNF UNEF etc. Any threads as per custom design
Size	:	As per Customer requirement specification or as per custom design
Finishing/Plating	:	Brass Natural, Electro Tinned, Nickel, Silver, Zinc, Nickle-Chrome or Any Special Finish/Plating as per Customer's Specification.

Products

Brass Hot Forged Components

Brass hot-forged components are created by heating brass alloys to high temperatures and then shaping them under intense pressure to form a wide range of parts.

This forging process enhances the material's strength, durability, and resistance to corrosion, making it ideal for use in various industries.

Product Range

- ✓ Brass Forged Fittings
- ✓ Automotive Parts
- ✓ Gas and Valve Fittings
- ✓ Pneumatic & Hydraulic Fittings

Technical Information

Material	:	Brass IS-319 Grade I & Grade II, C 36000, Free Cutting, BS 249, CuZn39Pb3 etc. Any special Brass Material as per customers requirement.
Threads	:	ISO Metric, BSP, BSPT, NPT, NPTF, UNC, UNF UNEF etc. Any threads as per custom design
Size	:	As per Customer requirement specification or as per custom design
Finishing/Plating	:	Brass Natural, Electro Tinned, Nickel, Silver, Zinc, Nickle-Chrome or Any Special Finish/Plating as per Customer's Specification.

Products

Brass Inserts

Brass inserts are versatile components used to create durable, corrosion-resistant threaded holes in materials such as plastic, wood, and composites.

Common types of brass inserts include threaded inserts for plastics, helical inserts for thread repair, knurled inserts for enhanced grip, and press-fit or self-threading inserts for easy installation.

Product Range

- ✓ Brass Threaded Inserts
- ✓ Brass Knurling Inserts
- ✓ PPR Inserts
- ✓ Brass Hexagonal Inserts
- ✓ CPVC Inserts
- ✓ UPVC Inserts
- ✓ Brass Round Knurled Inserts
- ✓ Brass Square Inserts

Technical Information

Material	:	Brass IS-319 Grade I & Grade II, C 36000, Free Cutting, BS 249, CuZn39Pb3 etc. Any special Brass Material as per customers requirement.
Threads	:	ISO Metric, BSP, BSPT, NPT, NPTF, UNC, UNF UNEF etc. Any threads as per custom design
Size	:	As per Customer requirement specification or as per custom design
Finishing/Plating	:	Brass Natural, Electro Tinned, Nickel, Silver, Zinc, Nickle-Chrome or Any Special Finish/Plating as per Customer's Specification.

Products

Brass Nut, Bolt and Washer

Brass nuts, bolts, and washers are essential fasteners widely used across various industries due to their excellent corrosion resistance, strength, and aesthetic appeal.

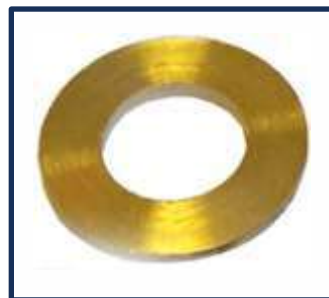

Brass nuts come in various types, such as hex nuts, wing nuts, lock nuts, and cap nuts, each offering unique advantages like ease of installation, resistance to loosening, and a clean, polished finish.

Product Range

- ✓ Hex Nuts
- ✓ Wing Nuts
- ✓ Lock Nuts
- ✓ Cap Nuts
- ✓ Hex Bolts
- ✓ Carriage Bolts
- ✓ Socket Head Bolts
- ✓ Machine Bolts
- ✓ Flat Washers
- ✓ Fender Washers
- ✓ Specialty Washers
- ✓ Spring Washers

Technical Information

Material	:	Brass IS-319 Grade I & Grade II, C 36000, Free Cutting, BS 249, CuZn39Pb3 etc. Any special Brass Material as per customers requirement.
Threads	:	ISO Metric, BSP, BSPT, NPT, NPTF, UNC, UNF UNEF etc. Any threads as per custom design
Size	:	As per Customer requirement specification or as per custom design
Finishing/Plating	:	Brass Natural, Electro Tinned, Nickel, Silver, Zinc, Nickle-Chrome or Any Special Finish/Plating as per Customer's Specification.
